● Storage and keeping

1. Do not expose the monitor to excessive heat or cold. The storage temperature of this device is -30~+80℃, and the operating temperature is -20~+70 ℃. The humidity is RH90%

2. Never use this device near a bathtub, wash basin, kitchen, damp basement, swimming pool or similar places.

3. Never use this device in environments with excessive moisture, dust or smoke.

4. Avoid dropping or striking this device.

5. Avoid using this device in enclosed spaces, areas with excessive vibration or subject to severe impacts.

6. Never puncture, scratch or use abrasive cleaning materials on this device.

7. Do not place cables where they may be pinched or stepped on.

8. Leave at least a 2" space between the monitor and walls, cabinets or other objects to allow adequate air circulation around the device.

9. The monitor is not designed to be waterproof.

● Operating precautions

1. The device may be powered by a 12 or 24 volt automotive battery or vehicle electrical system.

2. Make sure all cables are connected properly. Observe polarity. Improper cable connections may damage the monitor. Remove the power cable connections when you do not intend to use the unit.

WARNING!

1. High voltage is present within the monitor. The opening of the case should be by professionals.

2. Do not watch the video while driving unless you are monitoring the rear view camera display.

SPECIAL NOTICE

Occasionally, a few highlights or dark spots may occur on the LCD screen. This is a very common phenomenon in active matrix display technology, and doesn't necessarily indicate any defects or faults. Never try to repair this device by yourself. In case of any problems, please turn off the display at once and notify our company or authorized dealer. The monitor is a complex device. Any disassembly or modification may lead to damage and void the warrantee.

● Maintenance

1. Remove all the cable connections from the monitor before cleaning the device.
2. Use a mild household detergent and clean the unit with a slightly damp, soft cloth.
3. Never use strong solvents such as thinner or benzine, as they might damage the finish of the device.

⚡	CAUTION	⚠
	RISK OF ELECTRIC SHOCK DO NOT OPEN	
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.		

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

This symbol is intended to alert the user not to dispose of electrical and electronic equipment.

CAUTION

You are cautioned that any changes or modifications not expressly approved in this manual could void your warrantee and necessitate expensive repairs.

● Declaration of conformity

FCC

R&TTE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. PRODUCT FEATURES

1. TFT LCD monitor with wide angle view and high resolution display.
2. NORMAL, MIRROR, FLIP and MIR-FLIP viewing available.
3. Split mode, auto-scan mode and single-display mode available.
4. Auto pairing: Auto pairing happens when camera is activated.
5. Support 4-channel composite and single-channel recording in AVI signal format.
6. Auto dim function available.
7. Full-function remote control.
8. 4 wireless camera input.
9. Multiple video formats: PAL / NTSC.
10. Wide voltage input: 10 - 32V.
11. On-board speaker.
12. Auto switch to the working channel when trigger is activated.

3. TECHNICAL SPECIFICATIONS

1. LCD size   7"
2. Resolution   800 x 3 (RGB) x 480
3. Contrast   500:1
4. Brightness   400 cd/m^2
5. Viewing Angle   U: 50 / D: 70, R/L: 70
6. Dot pitch   0.0642(W) x 0.1790(H)
7. Aspect Ratio   16:9
8. Channel   4 channels
9. Operating Frequency   2400 - 2483.5 MHz
10. Receiving Sensitivity   -89 dBm
11. Decompression Form   MPEG4
12. Modulation   2.4G FSK/GFSK
13. Time Delay   120ms
14. Transmitting Distance   120 M
15. Micro-SD /TF Card   Max. 128G
16. System Format   PAL / NTSC
17. Power Supply   DC 10-32V
18. Power Consumption   Max. 6W
19. Loudspeaker   1.5W/8Ω
20. Operating temperature   -20~+70ºC,RH90%
21. Storage temperature   -30~+80ºC,RH90%

9. RECORDING TIME

With Micro SD cards in different capacities, please refer to the table below for recording time under 3 different image modes. This table is for reference only. Data may vary under different environments.

TF / MODE	8G	16G	32G	64G	128G
SINGLE (640x480x1)	14h	28h	55h	110h	220h
QUAD (320x240x4)	11h	22h	43h	86h	172h
SPLIT (400x480x2)	13h	25h	50h	101h	201h

10. INSTALLATION TIPS

1. Antennas should be vertically lined to the ground. Make sure there is no obstacle around antennas.
2. Magnet based extension antenna should be attached on the top of the vehicle. Make sure there is no obstacle around or between 2 antennas.

The symptoms described below do not necessarily mean a failure within the display. Please check the following items before you initiate request for repair.

PROBLEMS	POSSIBLES CAUSES / SOLUTIONS
No picture, no sound	Improper connection of automobile adapter. Use of un-authorized power supply. Power switch is on OFF position.
No signal	Check whether the camera has power supply. Pair the monitor and the camera again.
No sound	Check whether the sound volume is turned off or set too low.
Dark picture	Check whether brightness and contrast are adjusted correctly.
No color	Adjust the HUE settings.
